

Growing As Your Garden Grows

Whether you have been gardening for twenty years or are just getting started this program is for you. We will discuss weeds and pests to keep a look out for, different styles of gardening, troubleshooting common issues and other good gardening practices to help you achieve your goals.

On May 21st at 7 P.M. let's all learn together. If the date and time do not work for you no worries, the program will be recorded and available at a later date on youtube. Hope to see you there!

WHERE

From the comfort of your own home!
(Virtual Meeting Via Zoom)
