PROJECT GUIDE

LA CROSSE COUNTY 4-H

Please contact us at 608-785-9593 or lacrossecounty4h@lacrossecounty.org_with questions.

HOW DO I ENROLL IN LA CROSSE COUNTY 4-H?

All 4-H enrollments are completed by using 4HOnline (wi.4honline.com). 4-H membership is open to youth year round. However, any youth wishing to participate in any competitive event as a **4-H member must be enrolled by April 1st**. *Please note that in order to participate in the Wisconsin State Fair, youth must be enrolled in 4-H prior to March 1st as that is a Wisconsin State Fair Exhibitor Rule.*

All projects that youth wish to exhibit must be in their 4HOnline profile by **April 1st**. For example, if they want to exhibit jam at the Fair in July, they must be signed up for the Foods Preservation project in 4HOnline by April 1st.

WHAT IS A PROJECT?

A "project" is simply a topic that youth can explore. On the following pages, you'll find descriptions and resources on a wide variety of major topics-art to woodworking, photography to rabbits, clothing to small engines and so much more. As youth explore a project, 4-H thinks you'll learn more than just subject matter. You'll learn life skills, too. These are valuable skills such as understanding yourself, communicating and working with others, problem solving and decision making that can be used the rest of your life.

An EEO/AA employer, University of Wisconsin-Extension provides equal opportunities in employment and programming, including Title VI, Title IX, and the Americans with Disabilities Act (ADA) requirements.

ARE 4-H PROJECTS DONE INDIVIDUALLY OR AS A GROUP?

Both, since some projects like fishing or biking may be more fun when done as a group. Others, like making a dress or creating a drawing may be done individually.

ARE 4-H MEMBERS EXPECTED TO DO THEIR OWN PROJECT WORK?

Since 4-H is a "learn by doing" program, leaders, youth leaders and parents may tell or show a member how to do something, but members are expected to learn how to do things themselves.

WHY SHOULD I BE A 4-H PROJECT LEADER?

4-H is a great opportunity to become involved in your child's development as a 4 -H Leader or Volunteer. For more information on how to sign up as an Extension 4-H volunteer, visit our online website at <u>https://lacrosse.uwex.edu/4-h-youth-development/volunteers/</u>.

HOW DO I ORDER PROJECT LITERATURE?

In the following pages, suggested project literature is listed for each project. **4-H members may receive free pieces of literature** as part of their membership. Any online resources will not count.

It is important that you do not use 4HOnline to order your literature, as it is not accurate to our county. After making your selections using this guide, fill out the Project Literature Request Form at <u>https:// goo.gl/LTS3eR</u> to order your literature.

THEATRE ARTS

- Study acting, sound, movement, voice and speech
- Learn different ways to play a scene
- Try pantomime, clowning and improvisation
- Become a puppeteer
- Study costumes, makeup, stage sets, props and sound
- Learn stage management
- Create sounds and disguises

Project Literature:

Imagination in Action 1 (grades 3-5) Imagination in Action 2 (grades 6-8) Imagination in Action 3 (grades 9-13)

PLANT & SOIL SCIENCES

CROPS

- Learn about variety selection, germination and planting
- Learn about nutrients, harvesting and storage
- Explore uses and marketing strategies
- Scout for pests and diseases
- Study growing techniques
- Compare production costs

Project Literature:

Prairie Primer (PDF) https://learningstore.uwex.edu/Assets/pdfs/ G2736.pdf

<u>S.T.E.M. (SCIENCE,</u> <u>TECHNOLOGY,</u> <u>ENGINEERING, MATH)</u> AEROSPACE

- Build various types of rocket models
- Learn to read a map and plan a flight route
- Identify types of aircraft
- Discover the effects of weather and gravity
- Build and fly various kites
- Exhibit and launch model rockets

- Make a flight simulator
- Build an altitude tracker
- Explore life in space and aerospace careers

Project Literature:

Lift Off Pilot in Command Pre-Flight Reaching New Heights

COMPUTER SCIENCE

- Learn about the five fundamental principles of computer programming
- Interact with tutorials and challenges within the Scratch environment
- Work on activities individually, with partners, or in a guided instructional setting
- Strengthen programming skills
- Write computer programs

Project Literature:

Level 1: Fundamentals Level 2: Explorations Level 3: Recursion

GEOSPATIAL

- Discover ways of thinking about geographic positions
- Learn about navigational tools
- Learn how to measure distances and collect data
- Make maps of your home and neighborhood
- Use multi-layered maps to solve problems
- Find ways to reduce traffic congestion
- Pinpoint pollution sources

Project Literature:

Exploring Spaces, Going Places CD

ROBOTICS

- Learn how design can change a robot's function
- Build robots from everyday items
- Learn about friction, electricity, constraints, gears and motors
- Explore sensors, analog systems and digital systems
- Build basic circuits to see how components work
- Investigate basic elements of programming and instructions for robotic computer control

Project Literature:

4-H Robotics Youth Notebook Give Robots a Hand Mechatronics Robots on the Move

WIND ENERGY

- Learn about using wind as an alternate energy source
- Explore effects of wind including erosion and weather patterns
- Discover the untapped potential of wind's energy
- Learn about windmills

Project Literature:

The Power of Wind

VISUAL ARTS

ART

- Learn art through cutting, pasting and drawing
- Explore sculpting and constructing with fibers
- Paint and print using different materials
- Explore art techniques, culture and history of art
- Learn artistic challenges in drawing, fiber arts and sculpting
- Develop graphic design techniques

Project Literature:

Get Started in Art Portfolio Pathways Sketchbook Crossroads

BLOCK PRINTING

- Design and cut blocks from different materials
- Print designs on cloth and paper
- Create your own original designs

Project Literature:

Block Printing Member Guide (PDF) https://fyi.uwex.edu/wi4hpublications/ files/2015/10/4H156.pdf

CERAMICS

- Learn types and techniques of making ceramics
- Explore pottery, casting and molding
- Paint and decorate ceramic pieces

Project Literature:

4-H Cast Ceramics (PDF) https://catalog.extension.oregonstate.edu/sites/ catalog/files/project/pdf/4-h740.pdf

COLLECTIONS

- Learn about various types of collections
- Discover the collecting process
- Learn how to best display your collection

Project Literature:

My Favorite Things

DRAWING & PAINTING

- Learn to draw with pencil, chalk, crayon, etc.
- Learn to blend and shade
- Make surface rubbings
- Paint with watercolor, oil and acrylics
- Mix colors
- Matte and frame your artwork

Please be advised that this chart is only a suggestion. The La Crosse County Extension office and 4-H staff can only make recommendations in regards to Fair entries and what department(s) should be entered. It is the decision of the youth and/or guardian(s) of what projects to enroll in and what Fair entries to sign up for. The Extension office is not liable or responsible for any wrong decisions families make in regards to Fair entry sign up in June. For this reason, it is highly recommended families thoroughly read the Fair Exhibitor Guide and Premium List found online at <u>www.lacrosseinterstatefair.com</u> prior to the Fair entry deadline.
